EXETER

The master of balance

The Exeter is a divine combination of simplicity, comfort and natural fibres. With a pillowed top and a spring core, it rocks you into sleep and soothes your body. Our built-in vent creates amazing airflow, so you can let go of the daytime worries and surrender to the magic of the night. Built to evenly distribute the weight, it offers excellent back support and accompanies you into a new day, every day.

CORNWALL

The mighty supporter

The Cornwall is a premium mattress combining the comforting and warm woollen side with a fresh and cooling cotton side. It is an extra firm spring mattress that can support heavier bodies and has a built-in vent to enhance airflow. The massaging foam layer stimulates and relaxes every part of your body, to ensure you will wake up refreshed every morning.

SOMERSET

The natural charmer

With Somerset we created a perfect marriage of softness and support. The woollen side keeps you extra warm during the winter, while the cotton side cools you down during hot summer nights. We designed pillowed tops on both sides and combined them with natural fibres, so you can relax and let nature's finest elements nurture you into a refreshing morning.

GRAFTON

The nurturing cloud

Sleeping on Grafton feels like sleeping on a cloud. We selected and intertwined the finest materials using relaxing amounts of foam for your comfort. It is our softest mattress so it gives you a feeling of floating, while at the same time generously supporting your shoulders and back. It represents an embodiment of a dreamland, with a pocket spring system core.

ELY

The modern queen

The Ely is our memory foam queen. We infused the foam with gel to allow your body maintain a balanced temperature throughout your sleep. The very heart of the sleep system is represented by a premium spring mattress offering great comfort and support for your shoulders and hips. We joined innovative knowledge with true craftsmanship to introduce you to our modern and exquisite creation.

DEVONSHIRE

The comfortable beauty

The Devonshire is beautiful and delightfully comfortable. We created a double spring core for the perfect balance of pressure, relief and support. Its interior was made to offer a relaxing experience throughout your body and the memory foam layer was added to enhance the feeling of familiarity and connection with the shape of your uniqueness. The cushioned top supports your shoulders and stimulates them for new adventures.

YORK

The master of seasons

The beautiful York mattress elegantly combines comfort and support. It feels fresh in the summer, as the combination of latex, memory foam and cotton cools down your sun-kissed body and pampers you during long winter nights with latex, memory foam and wool layer. The massage foam coat represents the cherry on top of this exclusive sleeping experience.

RUTLAND

The ultimate masterpiece

The Rutland is a superior combination of tenderness and support. We placed a layer of silk on top of the gel-infused memory foam and latex to ensure premium weight distribution and temperature regulation. We finished it off with handcrafted details that add to its luxurious aura, in order to rock you into sleep like royalty, even when you’ve had a bad day.

KENT

The charming prince

The Kent is a beautiful duet of silk and camel wool. With this mattress we fulfilled our daring desire to create a resting oasis for all seasons. We selected the finest materials worldwide and gave them a new shape and a new purpose. Its spring core is layered with copious amounts of cotton for extra comfort and a feeling of safe oblivion.

AVON

The royal experience

When creating the Avon we combined our trust in nature's intelligence and human innovation. Its latex layer deeply relaxes and evenly distributes weight, thus eliminating tiredness. We added a top cushion with its own pocket spring system, so it almost feels like a second mattress. But the most important part is hidden in its unique filling - horsehair, which is perfect for proper evaporation of perspiration that might otherwise remain hidden in the depths of your mattress.

PROPER USE AND CARE OF YOUR NEW BEDDING SYSTEM BY ROYAL SLEEPER

Carrying the mattress flat on its side will reduce the risk of damaging the mattress and its components during transportation. If handles are provided, use for positioning and rotating the mattress only. Be sure not to use the handles to lift the mattress. They are not designed for heavy lifting.

Use the bedding system for rest and relaxation, not for playing. Do not let anybody stand or jump on the bedding system, as it is not designed for this kind of stress.

Do not smoke in bed. No matter if your bedding system is flammable or not, cigarette buds and fire may damage your bedding system, therefore voiding your warranty.

Use proper sheets, as improperly sized sheets may bend your mattress and damage its components.

Regularly rotating your mattress is strongly advised unless indicated otherwise. Rotating your mattress helps evening out the wear and prolonging the life of your sleep system.

Protect your bedding system against hazards.

Keeping your bedding system clean lowers the risk of damage caused by stains or liquids. Use a mattress pad and wash it frequently with your bed linens. Mattress pads absorb perspiration and stains, keeping your mattress fresh.

Properly clean your bedding system.

To keep your bedding system free of skin debris, regularly vacuum the surface of the mattress. Cleaning fluids and other liquids may damage the material used in your bedding system, so detergents, soaps and other cleaners are not recommended. Water or other liquids can penetrate your mattress, damaging the materials and causing them to shrink.

Possible product deviations.

All of our bedding systems are made with great care and attention to detail, employing both mechanical means and individual hands-on workmanship. Due to the nature of hand-crafted products, some bedding systems may vary in size by 1-2 %, or may have, upon close examination, the smallest of imperfections.
